

**Funny, when the utility bill shows up
so does the hottest day of the month.**

Cool down rising energy costs by upgrading to premium insulation.

With energy costs soaring, now is the time to think about your next cooling season. By adding Nu-Wool Premium Cellulose Insulation to your attic or walls, utility bills can be reduced drastically*. Nu-Wool is a premium insulation product designed to keep cool air where it belongs...in your house. Made from recycled newspapers, Nu-Wool is treated with an EPA-approved additive which makes the insulation resistant to mold growth. And because Nu-Wool is blown-in-place, a seamless barrier is created that provides you with a more comfortable and energy efficient home. Finally, savings you can look forward to, all month long.
