

**Turn it up, you lose.
Turn it down, you lose.**

**With energy costs on the rise, turn to
Nu-Wool Premium Insulation and win, win.**

With energy costs soaring, your thermostat is no longer the most efficient way of controlling utility bills throughout the year. By adding Nu-Wool Premium Cellulose Insulation to your attic or walls, utility bills can be reduced drastically*. Nu-Wool is a premium insulation product designed to keep cool air where it belongs... in your house. Made from recycled newspapers, Nu-Wool is treated with an EPA-approved additive which makes the insulation resistant to mold growth. And because Nu-Wool is blown-in-place, a seamless barrier is created that provides you with a more comfortable and energy efficient home. So, take control of your energy bills right away...before they get out of hand.
